Advocate for Family & Belonging

Author

Meet Joi R. Fisher-Griffin: Educator, Entrepreneur, and Author. Her memoir *Finding Joi: A True Story of Faith, Family, and Love*, a personal account of her journey as an adoptee, highlights her passion for family, belonging, and identity. Through the sharing of her own experiences, she aspires to assist others in navigating discussions concerning adoption, the expansion of families, and relationships. It was a poignant moment when Joi encountered a pre-teen girl in tears at her office, victimized by hurtful teasing because she didn't resemble her father, prompting Joi to disclose her adoption journey. Subsequently, Joi crossed paths with NJCARE adoption advocates and their support group, who motivated her to share her story within her own circle of influence.
